EXPERIENCE

FOODHUB — Nov 2021 – Present

BI Specialist · Business Intelligence — Jan 2026 – Present

- Deliver monthly performance insights for senior leadership.
- Designed one standardized Combined Performance Score methodology and built the automated pipeline behind it, replacing a fragmented, manual process and freeing close to a full headcount per team.
- Designed and administer the data platform the team now builds on.

Business Intelligence Analyst · Business Intelligence — Jun 2023 – Dec 2025

- Authored and maintained 100+ production QuickSight datasets on Redshift, several combining 50+ source tables in one query.
- Work reaches 150+ downstream dashboards and 300+ analyses across the organization.
- Automated dashboards and reports; analyzed revenue, customer-behaviour and platform trends.

Associate Real Time Analyst · Workforce Management — Sep 2022 – May 2023

- Forecast contact-centre demand and analyzed agent utilization across queues.
- Investigated root causes when service levels or staffing fell short.

Associate Business Support · Customer Retention — Nov 2021 – Aug 2022

- Won back unhappy clients by understanding their needs and adding the right software and extra support for their business.

SUTHERLAND — Dec 2018 – Jul 2021

Associate – CS Phone · Retention & Sales — Dec 2018 – Jul 2021

- Retained and sold McAfee antivirus software to customers.

ATECH NETWORK SYSTEMS PVT. LTD. — Dec 2017 – Dec 2018

Customer Service Associate · Customer Support — Jun 2018 – Dec 2018

Trainee – Support Executive · Customer Support — Dec 2017 – Jun 2018

- Arranged UK airport transfers; sourced outside providers and quoted jobs to stay profitable.

OVERSEAS MARINE SERVICES — Jul 2016 – Jul 2017

Supervisor · Fabrication — Jan 2017 – Jul 2017

- Managed fabrication materials and tools, quality inspection and payroll.

Trainee · Fabrication — Jul 2016 – Dec 2016

SELECTED PROJECTS

KPI Scoring Pipeline SQL · Python · Redshift
One scoring method for every operational team, replacing manual monthly calculations. Feeds HR appraisals and Finance incentive payouts.

Customer Support Data Platform Python · SQL · Dagster
Turns 180,000+ support chats into clean, queryable tables, with monitoring that escalates until someone acts.

Conversation Intelligence Platform Python · Local LLM
Chose an LLM by testing consistency, not just accuracy; 92–96.5% exact agreement with human reviewers. Scored 3,500+ production conversations.
